

Confidential Information Memorandum

Project Falcon

Falcon Precision Technologies, Inc.

Prepared by Ridgeline Advisors (fictional) for qualified buyers. September 2026.

SYNTHETIC DEMONSTRATION DOCUMENT. Falcon Precision Technologies is fictional. Prepared for the MCM Intelligence concept prototype.

1. Company overview

Falcon Precision Technologies is an AS9100-certified manufacturer of precision machined aerospace components founded in 1987. The company operates two facilities, in Ohio and Kansas, and employed 168 people at fiscal year end 2025. Products include hydraulic manifolds, structural fittings and engine-adjacent brackets supplied to commercial aerospace and defense OEMs and their tier-one suppliers. Qualification cycles typically run 12 to 24 months, after which parts are rarely resourced mid-program.

End-market exposure (FY2025 revenue): commercial aerospace 58%, defense 27%, industrial 15%.

2. Financial summary

All figures in US\$ millions unless noted. Fiscal year ends December 31.

Metric	FY2023	FY2024	FY2025
Revenue	32.9	35.3	38.2
Revenue growth		7.3%	8.1%
Gross profit	11.0	12.1	13.5
Gross margin	33.4%	34.2%	35.4%
Reported EBITDA	3.6	3.9	4.4
EBITDA adjustments	0.5	0.6	0.74
Adjusted EBITDA	4.1	4.5	5.1
Adjusted EBITDA margin	12.5%	12.7%	13.4%
Capital expenditures	1.9	2.1	2.4
Employees (year end)	151	160	168

FY2025 revenue growth of 8.1% was driven primarily by two aerospace platform ramps, referred to in this memorandum as Program X and Program Y.

SYNTHETIC DEMONSTRATION DOCUMENT. Falcon Precision Technologies is fictional. Prepared for the MCM Intelligence concept prototype.

3. EBITDA adjustments

Adjusted EBITDA of \$5.1 million in FY2025 includes \$740 thousand of adjustments comprising: owner compensation normalization (\$310 thousand), one-time legal costs related to a supplier dispute (\$220 thousand), and facility relocation costs for the Kansas plant (\$210 thousand).

Facility-related adjustments of \$180 thousand and \$210 thousand were also recorded in FY2023 and FY2024 respectively.

SYNTHETIC DEMONSTRATION DOCUMENT. Falcon Precision Technologies is fictional. Prepared for the MCM Intelligence concept prototype.

4. Customer analysis

Customer	FY2023	FY2024	FY2025
Customer A	29%	30%	31%
Customer B	11%	12%	12%
Customer C	9%	9%	9%
Customer D	7%	7%	7%
Customer E	5%	4%	5%
Top five customers	61%	62%	64%

Customer A represented 31% of FY2025 revenue and the top five customers represented 64%. The current supply agreement with Customer A runs through the third quarter of 2028. Pricing under the agreement is reviewed annually; the mechanics are not summarized in this memorandum.

SYNTHETIC DEMONSTRATION DOCUMENT. Falcon Precision Technologies is fictional. Prepared for the MCM Intelligence concept prototype.

5. Growth outlook

Management projects revenue growth at a 12% compound annual rate through FY2028, reaching approximately \$53 million. Approximately two thirds of the projected growth is attributable to volume increases on Program X and Program Y. The remainder reflects new part qualifications with existing customers.

SYNTHETIC DEMONSTRATION DOCUMENT. Falcon Precision Technologies is fictional. Prepared for the MCM Intelligence concept prototype.

6. Facilities and operations

The company operates 42 CNC machining centers across its two facilities, with estimated utilization of 78% on a two-shift basis. A third shift would add meaningful capacity without new capital. Quality metrics such as scrap rate and on-time delivery are available in the data room.

SYNTHETIC DEMONSTRATION DOCUMENT. Falcon Precision Technologies is fictional. Prepared for the MCM Intelligence concept prototype.

7. Management

Senior leadership consists of the founder and Chief Executive Officer, who owns 100% of the company; a Chief Operating Officer with 11 years of tenure; and a Chief Financial Officer hired in 2023. Working capital seasonality and customer contract copies will be provided in the data room upon request.
